## Highlights of Qualifications

---

- Pursuing Bachelor of Technology in Software Engineering Technology at McMaster University, expected May 2025.
- Advanced Diploma with Honours in Computer Engineering Technology from Seneca College, GPA: 3.60/4.00.
- President's Honour List recipient at Seneca College (Fall 2020, Summer 2021, Summer 2022).
- Proficient in Python, C# .NET, C/C++, HTML, CSS, and SQL for web and software development.
- Experienced in designing and implementing scalable web applications and online solutions with a focus on modularity and security.
- Skilled in database management using SQLAlchemy and MS SQL Server, with advanced proficiency in Git and GitHub.

## Education

---

**Bachelor of Technology, Software Engineering Technology (Co-op)** **Expected May 2025**

McMaster University, Hamilton, ON

**Relevant Coursework:** Data Structures & Algorithms, Operating Systems, Object-Oriented Programming, Computer Security, Parallel Programming, Software Requirements and Specification

**Advanced Diploma, Computer Engineering Technology with Honours** **Sept 2019 – Aug 2022**

Seneca College, Toronto, ON

**Relevant Coursework:** Advanced C Programming, Obj. Oriented C++ Programming, Event Driven Programming, Advanced Programming Concepts in C#, Engineering Codes and Practice, Engineer Technology and Design

**Cumulative GPA:** 3.60/4.00

**President's Honour List:** Fall 2020, Summer 2021, Summer 2022, for achieving a term GPA of 4.0/4.0.

## Projects

---

**Full-Feature Flask Blog** **Aug - Nov 2023**

**Personal Project - [GitHub](#) | [Demo](#)**

- Created a feature-rich web blog application with Flask and Python.
- Focused on modularity and user security to ensure a scalable and secure user experience.
- Utilized Flask, templates, and blueprints for organized code structure.
- Integrated Flask-Bcrypt for secure password hashing and user authentication.
- Implemented user authentication and account management, including registration, login, password resetting, and profile picture upload features.
- Enabled CRUD operations for blog posts to facilitate content management.

**Online Shop Using C# .NET** **Nov - Dec 2021**

**Seneca College, Advanced Programming Concepts Using C# - [GitHub](#)**

- Designed and developed a scalable online shopping solution using C# .NET, adhering to OOP principles.
- Created a thread-safe console-based server with user authentication and exception handling capabilities.
- Employed multiple protocol standards for managing user connections, product inventory, and order processing.
- Developed a fully functional, thread-safe GUI using Windows Forms, integrating a login form and shopping interface.
- Applied concepts such as concurrent collections, multithreading, interfaces, classes, and the Single Responsibility Principle (SRP) to enhance functionality and maintain code integrity.

## Skills

---

**Programming:** Python, C# .NET, C/C++

**Web Technologies:** HTML, CSS

**Development Tools:** GitHub, Git, Unix, Visual Studio, VSCode

**Databases:** SQLAlchemy, MS SQL Server

**Operating Systems:** Windows, Mac OS, Linux (Ubuntu, Debian), OpenVMS

**Hardware Platforms:** Raspberry Pi, ARM MBED Microcontroller

**Languages:** Fluent in English, Chaldean, and Arabic
